Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 11 August 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-10 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitations "the upper and lower ends" in line 4, "the hydraulic pressure chamber in lines 9-10, "the hydraulic pressure chamber" in line 11, "the plunger" in line 12, "the hold down slide block" in line 13, "the upper surface" in lines 14-15, and "the upper end" in line 16. There is insufficient antecedent basis for these limitations in the claim.

Claim 3 recites the limitations "the air pressure" in line 2, "the high pressure nitrogen" in lines 2-3, "the gasbag" in line 3, "the hydraulic pressure" in line 4, and "the high pressure oil" in lines 4-5. There is insufficient antecedent basis for these limitations in the claim.

Claim 4 recites the limitation "the upper and lower hydraulic chambers" in lines 3— There is insufficient antecedent basis for this limitation in the claim. Furthermore, the phrase "are connected each other" found in line 5 of claim 4 appears to be idiomatic English, correction is needed.

Claim 5 recites the limitation "the maximal space" in line 5. There is insufficient antecedent basis for this limitation in the claim.

The limitation "a snap ring groove is provided at the upper end of the plunder of the ejecting cylinder" in lines 2-3 renders the claim indefinite because it is unclear if applicant is

further defining the hydraulic press to have an snap ring groove in addition to the snap ring groove of claim 1 or is applicant is further defining the snap ring groove already claimed in claim 1.

Claim 7 recites the limitations "the water-cooling jackets" in line 2, "the outerwalls" in line 3, "the upper and lower ends" in line 7, and "the upper and lower ends" in line 10. The limitations "a connecting pipe and a connecting pipe are provided at the upper and lower ends of the water-cooling jacket" in line 6-7 and 9-10 does not clearly set forth the connection between the ends and the pipes. Correction is required, a correction suggestion is: a connecting pipe provided at an upper end and a connecting pipe provided at a lower end of the water-cooling jacket.

Claim 8 recites the limitations "the upper and lower ends" and "the water-cooling jacket" in line 3 "the upper and lower ends" and "the water-cooling jacket" in line 5, "the upper and lower ends" and "the water-cooling jacket" in line 7, "the water outlets" in line 9, and "the water inlets" in line 10. The limitation "a water inlet and a water inlet are provided at the upper and lower ends of the water-cooling jacket of the gas-liquid power accumulator respectively" in lines 4-6 renders the claim indefinite because it is unclear how the water-cooling jacket has an inlet at both ends and no outlet.

Allowable Subject Matter

Claims 1-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
